

CRYSTOP

SoloSat -F- Portable Automatic Satellite System

A revolution in free standing satellite reception!!

Warranty

24 Month

Features:

- Ground/Table Top legs
- 15m Satellite Cable
- Built in alarm system
- Internal battery
- Motorised satellite reception system for vehicles
- Stationary usage
- Automatic Digital Self Seeking
- Unique user-friendly controller
- Fast pivoting head technology
- Weather resistant construction
- Fully compatible with all European receivers
- Weights only 13kg
- Freesat ready

Description:

A revolution in free standing satellite reception!!

A known disadvantage of the fitted automatic satellite systems is that your motorhome may be parked under a tree or next to a building and satellite reception can have problems because of this.

Now this problem is a thing of the past!!

Now there is the SoloSat, the first automatic stand-alone satellite antenna. The antenna has a built in battery, and therefore has only one cable to your receiver.

It can pick up TV & radio all over Europe thanks to its ability to find 3 satellites. A SKY digibox can be connected to the system. (as with any satellite TV system, what you receive will depend on where you are and what type of receiver you use)

Specification:

Operating voltage: 10v... 15v DC

Dish type: Parabol

Dish size: 20cm x 45 cm (Equivalent - 60cm)

L.N.B. type: Universal (Single)
